

Creating pathways to new beginnings.

## **RIAN IMMIGRANT CENTER RESPONDS TO SUPREME COURT'S DACA DECISION**

BOSTON, MA (06/18/2020) – Today in a 5-4 ruling, the Supreme Court took its first steps in protecting DACA, a victory for Dreamers and immigrant families across the United States. Now, hundreds of thousands of DACA beneficiaries can breathe. The DACA decision acts as a temporary setback for the current administration's unlawful attacks on immigrants.

It is important to remember that DACA is not yet safe- the administration can still overturn this decision, and have made it clear they will continue with mass deportations. Overturning this decision would throw the lives of over 700,000 young DACA recipients into peril as they would face losing their work permits, being forced out of college, and deportation.

We must continue to fight for the rights of immigrants in this country. All people, regardless of status, deserve human rights and dignity. We will continue to support immigrants and immigrant youth to find a pathway to status and security.
